CUSTOM ENERGY MANAGEMENT APPROACH

MUNICIPALITIES
CASE STUDY:

OVERVIEW

Capital Energy Partners is an all-inclusive energy management firm. Our custom solution approach allows us to advocate on your behalf as owner's reps so your operations can continue running effectively while taking control of ever-evolving energy markets. Brokering electricity and natural gas to reduce budget risks is only the first step.

We work with you to take control of your energy costs.

Managing electricity and natural gas purchasing, eliminating national and international market risks

\$230,000 annually

Negotiated one time payment from new transportation line paying for town park upgrades

\$40,000 grant

Facilitated discussions due to billing error with off-site solar and utility credit system

\$150,000 refund

Demand Response program through pump storage strategy

\$10,000 annual revenue

Various lighting, heating and energy efficiency upgrades

\$30,000 annual savings

Coordination with county economic development agencies to aid current and new business prospects including the extension of electricity and natural gas to the area
